SUMMARY

Results-driven Computer Engineering graduate from Birzeit University and certified Full-Stack Developer with hands-on experience in building scalable web applications. Proficient in modern frontend and backend technologies including **React, Node.js, and Python (Django/Flask)**, backed by a strong foundation in **OOP, Data Structures, and Algorithms**. Passionate about cloud architectures and scalable API development, aiming to bring strong analytical problem-solving skills and a collaborative mindset to deliver high-quality software solutions in a dynamic engineering team.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, C, HTML/CSS | **Libraries/Frameworks:** React, Node.js, Express, Django, Flask, Bootstrap | **Databases:** MySQL, MongoDB | **Tools/Methodologies:** Git, GitHub, REST APIs, Socket.io, Object-Oriented Programming (OOP), Data Structures & Algorithms.

TECHNICAL PROJECTS

Personal Blog Website | [GitHub link](#) | [Live Demo](#)

- **Built a responsive personal blogging platform** utilizing **HTML5, CSS3, and JavaScript** to deliver a seamless user experience across mobile and desktop devices.
- **Implemented modular CSS principles** and semantic HTML to ensure a clean UI architecture, high code maintainability, and enhanced SEO performance.
- **Integrated dynamic frontend features** such as dark/light mode toggles and client-side form validations to improve user interactivity.

Upcoming Axsos Bootcamp Capstones: • *Python Web Application* • *Java Web Application* • *MERN Full-Stack Application [To be fully documented upon capsule completion]*

PROFESSIONAL EXPERIENCE

Front-End Developer Intern | Grids apps | Ramallah, Palestine **(July-November) 2025**

- **Developed and optimized** interactive user dashboards, translating complex UI/UX wireframes into responsive web pages using **HTML/CSS, Bootstrap, and Tailwind CSS**.
- **Engineered dynamic front-end functionalities**, including secure user registration forms, input validation using **JavaScript**, and seamless integration with **Node.js** backend APIs.
- **Collaborated effectively** with the development team via **GitHub**, managing version control, participating in code reviews, and streamlining deployment workflows.
- **Boosted mobile responsiveness** and **cross-browser compatibility**, enhancing platform accessibility.

EDUCATION

Axsos Academy | Full-Stack Developer Certificate | Palestine **(April - Expected October) 2026**

- A part-time immersive training program in web fundamentals, Python, algorithms, and data structures. The Bootcamp includes 20 weeks of programming as the following: +620 coding hours in total, 50 hours pre-boot camp, 120 hrs web fundamentals, 240 hrs Python, 60 hours of algorithms and data structures, 60 hours of 2 complete projects (Solo & Group). All stacks include group activities and leet-code and HackerRank.

Birzeit University | BSc Computer Engineering | Birzeit, Palestine **(February) 2026**

- **Relevant Coursework:** OOP (Java), Data Structures/Algorithms (Python/C), Database Management (MySQL), Advanced Web Engineering, Scalable APIs.

CERTIFICATIONS

Front-End Developer Nanodegree – Udacity **(2024)**

Front-End Course – Hope International **(2024)**.
